As one councilman pointed out Monday night, it is not ever certain that it will be \$1.50 this year, for if the legislature approves, council at its next meeting will pass on the rate, and it might not be necessary to put it at the maximum, although it will have to be higher than the \$1.25 at present. The boards go out of existence at once with the passage of the amendment in the legislature. Any action by council, it is pointed out, would be a mere formality.

The four boards that fell under the councilmanic ax Monday are charter boards. The board of trustees of Grady hospital, the board of electrical control and the ceme-

tees of Grady hospital, the board of electrical control and the cemetery commission, created by city ordinance, have already been cut off and their functions placed under the control of council committees. In the case of the charter boards the same thing will be done, if the charter amendment is successful.

Raleigh Hotel. Washington, May 16 .- (By Con titution Leased Wire.)-The United States supreme court rendered two decisions today of paramount na tional importance, one of which or-iginated in the courts of Georgia and both of which are of peculiar interest to the south. In both cases the government of the United notify the producers that the only States was interested party. It lost in one and won in the other.

The first decision was in the cele which a number of Georgia state banks that are not members of the federal reserve system sought to enjoin the Federal Reserve bank, of Atlanta, from taking steps to force collection of checks drawn on such non-member banks "except through the usual and ordinary channels,' the federal reserve banks claiming in its answer, one of the principal purposes of the Federal Reserve act being to establish par collection of checks throughout the country. The other decision today was victory for the government and involves hundreds of millions of dol-lars of revenue to the treasury. It sustained the government's conten-tion that increased value of any capital asset must be considered in corporation profits when taxes are

On the theory that a "great constitutional question" was involved in attempts at movie censorship, it was suggested that a test case be made and carried to the supreme court for decision.

CHECKS ARE SENT

The decision is of tremendous interest in Georgia and Florida particularly because of the large land and timber syndicates in these states that hold enormous acreages bought years ago at nominal figures and held today at enormous valuation. And it is equally as important, on smaller individual scales, to all business and fee holding interests in sections of enhancing valuations.

valuations. Story of Case.

Story of Case.

Authority of the Federal Reserve bank of Atlanta, Ga., to insist upon par collection of checks drawn upon non-member banks was at issue in the suit brought by more than 40 state banks of Georgia in conjunction with the American Bank and Trust company of Atlanta. The plaintiffs insisted throughout the case, however, that behind this issue was an attempt of the federal reserve institution to compel them to join the reserve system.

An injunction was sought to restrain the Atlanta reserve bank from collecting non-member checks in any manner "except through the usual and ordinary channels through correspondent banks and clearing houses." It was denied, and the case brought an appeal to the supreme court.

Charge Campaign.

Charge Campaign.

Charge Campaign.

Counsel charged that carefully planned campaign had been decided upon by the Atlanta Reserve bank and that the very existence of the state banks was threatened. Checks drawn against them were to be held uhtil a large amount had accumulated, it was asserted, and then a sudden demand made for the entire amount "over the counter," or such checks in large amounts were to be sent through the local postmaster for collection without notice, all for the one purpose of embarrassing the "hold-outs" from the reserve system.

The Atlanta Reserve bank denied that it intended any illegal act. The federal reserve act prohibited the payment of any collection charges, it averred, and left it with no alternative except to proceed in the manner complained of by the nonmember banks. A further defense was offered in the fact that universal par collection of checks would result in the annual saving of more than \$70,000,000 to the public.

The case constituted the first concerted attack upon the reserve act, was argued in April 1921. act, was argued in April 1921.

The "par clearance" decision is of peculiar interest in Atlanta, inas-much as it has been largely through the efforts of an Atlanta man, L. R. Adams, secretary of the Bankers' Trust company, that the efforts of the country banks to continue their struggle against the reserve bank ruling have been successfully continued.

London, May 16 .- There are indi-"explanations" by Great Britain and France that neither party to the Silesian controversy meant exactly what they said n the heated exchanges of the past week-end, will end the crisis and estore entente harmony, and that Lloyd-George and Briand may patch up the difficulty without resorting to warlike threats or maneuvers in eastern Europe.

Three outstanding features of the news which lead to this belief are as follows: 1. Germany, although given Great Britain's sanction for entering Silesia with orces and driving the Poles out,

has thus far shown no desire to ac-

cept the implied invitation and is therefore giving France no cause to put her threat into effect.

Willing to Meet Briton. 2. Briand, it has become known, willing to meet Lloyd-George and talk over the situation with him which he had refused to do in the heat of the controversy. French indignation, or at least the first anti-

British outburst, has become less pronounced. 3. A. A. Elmore, director of organization for the Georgia Cotton Growers' Co-operative association, will explain to bankers and business men of the city the plans and purposes of the association at a meeting to be held in the assembly room of the chamber of commerce at 11 o'clock Wednesday morning.

The meeting has been called for the purpose of giving the business men of the city a clear idea of the California plan of co-operative marketing of cotton, which it is the association's purpose to bring into effective operation in Georgia. Chas. S. Barrett, chairman of the organization committee, and Henry C. Bagley, may also address the meeting.

REFUND TO BE MADE

G. N. AND I. BOARDERS

Milledgeville, Ga., May 16.—(Special.)—The boarding department of the Georgia Normal and Industrial college has made arrangement to refund \$5,000 to the students in the boarding department, it is announced by President M. M. Parks. Although no refund was promised, and the dormitories have had to pay a great deal more for coal during the past year, and more for labor, and although the college has given good board and accommodations to the students by careful management and by the decline in food prices, especially since January, the college is able to give this additional evidence of its desire to hold down expenses and to serve its patrons economically.

The refund is made possible, also, by reason of the good collections, and by reason of the regular and good attendance of students. Less than 2 per cent of the boarding students have withdrawn during the spring term.

Barnesville, Ga., May 16.—(Special.)—There will tomorrow be an important educational rally, barbecue and basket dinner at the beautiful and palatial home of Thomas G. Scott, in Monroe county, some miles out Barnesville.

The meeting will be in behalf of the Christian education movement of the Southern Methodist church, Bishop Warren A. Candler and Dr. J. E. Dickey, of Atlanta, will make addresses. Mr. Scott is in charge of the movement in the Griffin district.

"A camel went forth seeking horns and lost his ears," was the proverbial statement of Attorney-General R. A. Denny Monday in discussing George M. Napier's peculiar situation in regard to the office of attorney-general this tangle being caused by the state supreme court's decision last week.

"The people of Georgia won't stand for an outrage, even if it is a technical one," said Mr. Napier, who was elected in the last general election, filed mandamus proceedings to force the governor to swear him in office January 1; lost the case and then appealed to the supreme court.

This body returned such a complicated decision Mr. Napier is extremely doubtful as to what has happened to him.

Secretary of State S. Guyt McLendon received a letter from Mr. Napier Monday afternoon, and the attorney-general-elect is awaiting his reply before taking any steps to be sworn into office in June with the new administration.

"The supreme court merely decided that the returns should have been sent to the governor and not to the secretary of state," he said. "Of course, if this had been done a commission would have been issued to me effective not later than January 1, 1921. The commission of former Attorney-General Clifford Walker expired on that date. I contended that I was entitled to the office from that date as the law provides that an appointment to fill a vacancy, as in he case of Mr.

Terming as "precipitate" the manner in which the board of education deposed of Superintendent of Schools W. F. Dykes, the association by unanimous vote adopted a resolution expressing regret at the board's action and urging for the future a "non-partisan, professional administration of our schools."

The resolution is as follows:

1. We deeply deplore the fact that the school system is again forced to bear the shock of sensitionalism; we feel that such conditions are detrimental to the training of children and the education of the youth of our city.

2. We regret the action of the board of education last week in terminating in precipitate manner the services of the superintendent of schools. We feel that no public servant should be removed from office without due consideration of fairness to the official concerned and to the public whom he serves.

3. We believe that the public cannot be

Washington, May 16 .- (By Constitution Leased Wire.)—Senator Norris, of Nebraska, has prepared a public he (De Valera) would give a public reply.

Early this month a conference occurred between Eamonn De Valera and Sir James Craig, the Ulster premier-designate, at which these two leaders of their respective sections of opinion in Ireland, talked over the situation. The meeting was said to have been without tangible results, but the fact that it was held was commented upon in Dublin carties and other circles as a hopeful.

Prices have gone down below the cost of production. Many farmers will be bankrupt by the end of the year if the condition continues. Today the market is stagnated, and there is a loss of more than \$50,000,000 every week. An agricultural financing corporation would solve this situation and the market would start upward.

"There would not be a cent of cost to the taxpayers, for the money to start the corporation is already available, in the profits from the grain corporation. The idea of aiding the farmers to finance the crops for foreign sale is not a new one. for it has already been applied in the industrial field, and in the cotton market. But the idea of a foreign finance corporation organized to handle solely farm products is new."

NEGRO POPULATION

IN SAVANNAH DECLINES

Savannah, Ga., May 16.—(Special.) The alarming disparity between mortality statistics among white people in Savannah and the disparity also between the number of births in a recent period in colored and white families in this city, has caused the health officer, Dr. W. F. Brunner, in service for a quarter of a century, to issue a special report calling attention to these facts and urging a study of the situation to locate the cause or causes and arrest remedies for the preservation of the negro element of the population.

In the term reported upon, there were nearly three times the number of deaths among the negroes as among the white people, and only about 60 per cent of the births in colored families as in white families.

Launching a fight to sever the school department from councilmanic control, Councilman Claude Ashiey introduced in city council Monday afternoon, a resolution in which was embodied the charter amendment provisions to remove the mayor and council from membership on the board of education; give the schools not less than 30 per cent of the city's revenue and in addition the state school fund, non-resident tuition fees and the power to borrow money; and to make woto borrow money; and to make wo-men eligible to membership on the board. The measure was referred to the charter revision committee, as a council rule requires, and the public will be given an opportunity to speak at a public hearing. In a brief speech Councilman Ashley declared that in presenting the resolution it was not his intention to reflect on anybody connected with the school board. "I am fond of Jim Key," he said, "but he will do things I wouldn't do and I will do things I wouldn't do and I will do things he wouldn't." The report that he had started the separation movement as an aftermath of the method used in ousting Superintendent of Schools W. F. Dykes, the councilman stated was incorrect. He said that he had planned his resolution three weeks ago and was holding it up pending! the election of a superintendent in order that there might be no appearance of politics The measure was referred to the

TITHERS FOR CHURCH

Chattanooga, Tenn., May 16 .-Plans for enrolling a half million tithers among the members of the local Baptist churches of the south were projected by the Southern Baptist convention tonight upon recommendation of the Laymen's Missionary movement. The quota of tithers will be apportioned to the various states by a committee representing the laymen's movement, the woman's missionary union and the executive committee of the convention.

The regular work of both the laymen's movement and the wynan's missionary union was presented to the convention at the night session.

Few changes were made in the membership of the general boards and the executive committee for the ensuing year.

The final session of the convention will be held Tuesday morning. Plans for enrolling a half million

Athens, Ga., May 16.—(Special.)— What is considered by the faculty of the State College of Agriculture and Mechanics Arts as one of the largest and most efficient groups of young men which has ever gone from the institution will on June 15 be graduated from the college. A number of these young men have held commissions in the army, and demonstrated that they know how to readily meet difficult situations and deal with and handle men successfully. Andrew M. Soule, president of the college, states that the courses of instruction at the college have within the past two years been greatly strengthened, and that the present graduates will be perhaps better fitted to take their places in the world than any other graduating class. He states that the students who will this year graduate have specialized upon many different lines. President Soule has sent letters to many men of prominence throughout the state with a view to securing positions for as many graduates as possible, upon their departure from the college. **DEKALB COUNTY DEBTS** 549 13 Shares of Swift & Company are widely distributed. JUDGE SEARCY SOON

I reply this week to Judge W. E. H. Seazey's latest attack on him for publishing the booklet. "The Negro in Georgia." He is now engaged in the preparation of his statement, and, it is understood, it will be made public either Tuesday after noon or Wednesday morning.

While the chief executive has given or intimation of the nature of his reply, it is believed he will declare, as he did at the time the booklet was published, that he is booklet was published, that he is the state.

There was considerable conjecture Monday night as to whether the governor will make public the names of those from whom he obtained a large amount of the information contained in the pamphlet not as an indictiment of the state, but to call, the people's concentrated attention to thase particular classes of alleged crimes.

Maintaining this position, the governor will then cite Judge Searnor will detect the fact that he, and not the chief executive, construed the booklet as a blanket indictment of the state.

There was considerable conjecture Monday night as to whether the governor will make public the names of those from whom he obtained a large amount of the information contained in the pamphlet.

Real estate authorities state that a new high mark in price for Atlanta dirt was established when the Savov theater property, located at \$1 Peachtree street, was Monday purchased from the Winship Realty company by George W. Felker, Sr., of Monroe at a price of \$232,960. The total frontage of \$3.28 feet sold for about \$7,000 per front foot.

The transaction was handled by the Adair, Realty and Trust company. It is understood that Mr. Felker, who is a capitalist and banker of Monroe and who alreday holds considerable real estate property in Atlanta, placed his confidence in this property as a sound investment, even in preference to United States government bonds, alarge portion of the purchase price being paid in various issues of Liberty bonds.

ARMY OF 175,000 PLAN OF SENATE SUBCOMMITTEE

Washington, May 16.—An army of 175,000 men was decided on to-day by the senate military affairs sumcommittee considering the army appropriation but. The measure as passed by the house provided for an army of 150,000 men. In fixing the army strength at 175,000 men, the subcommittee acceded to the request of Secretary Weeks that such minimum be provided, even if other items had to be decreased. The bill to be laid before the full committee would carry \$339.859.000 as compared with \$320,765.000 in the house measure and \$346.000,000 in the bill vetoed by President Wilson.

LOWER CALIFORNIA CROP OF COTTON TO TOP ESTIMATE

Washington, May 16. — Consul Boyle at Mexicall, Mexico, reported today to the department of commerce that the 1920-1921 cotton crop in Lower California is considerably in excess of 85,000 bales, which is much greater than the crop estimates had indicated. The prices obtained for this year's crop was only about \$7,000,000, against the 112,000,000 last year.

SHOE WORKERS' UNION **MEETS IN CONVENTION**

St. Louis, May 16.—Delegates representing 50000 workers throughout the United States and Canada met here today in the fifteenth blennial convention of the boot and shoe workers' union, for the announced purpose of devising methods to strengthen the organization and protect the wage scales of their craft.

protect the wage scales of their craft.

Emphasizing that there has been no general request by employers for wage reductions in the large sho manufacturing districts of the east and middle west, delegates said some of the employers have sought to lower the standards, and, it was added, there have been rumors of concerted action in this direction.

Craigie House.

A meeting full of enthusiasm was held at Craigle house on Saturday afternoon by the Atlanta Chapter D. A. R., Mrs. Kirk, regent, presiding. At the conclusion of the business meeting reports were heard from those present who attended Continental Congress in Washington. Mrs. 8. W. Foster was unable to attend on account of illness in her family and Mrs. High brought back a most concise as well as witty report from congress, as well as telling us of the social side.

The regent, Mrs. Kirk, told us of the business of the congress and the pride she felt in Georgia. Miss Hazel Kirk made an interesting report, having served a second time as page in congress. She spoke of as page in congress.

Washington, May 16 .- Private wnership of railroads in the United States cannot continue if railroad operating costs, when fair return on capital is considered, continue to exceed revenues, Daniel Willard, president of the Baltimore & Ohio. testified today before a senate investigating committee

At the same time Mr. Willard said the railroad situation, insofar as depression and lack of earnings concerned, differed "only in degree" from that now being encountered in other industries. General economic conditions and the difficulties encountered in federal war-time operation of the carriers, he added, were in his opinion largely responsible for present difficulties, and he expressed confidence that private ownership would justify itself financial-

THE RAILROAD PROBLEM. The interstate committee of the senate is now engaged in seeking solution to the problem present ed in the status of the railroads of

the country: and it is to be hoped

that its effort will be successful

One thing is certain, and that is that the railroad problem will never be solved by government owner conducted under the most prosperous conditions this country has ever known, cost the government, In round figures two billion five hundred million dollars (\$2,500,-000,000) in two years-this being responsible for much of the burden of taxation now being borne by the public.

The solution must come in some other way.

Possibly it may be found in the auguration of reforms such as will affect not only the employees of the railroads, but the management as well.

It is held by the representatives organized labor that the deplorable condition in which the railroads of the country find themselves is not due alone to the high faulty administration and wasteful management. They hold that any novement looking to a permanent and effective solution of the problem must take into consideration the other end of the railroad struc-

It is possible that a way may be found to produce greater economy in the managerial end of railroad operations: which, with a concurrent curtailment of wages, will put the carriers again on a paying basis.

At any rate, the claim is made committee, of which he is chairman, is at work on that line.

same trip.

People are simply not using the railroads any more than it is absolutely necessary to use them; and the railroads suffer in consequence.

The other day a little railroad in South Carolina established a unique record by going before the state railroad commission and asking that it be allowed to reduce its rates, on the grounds that it could earn more revenue by operating on a lower rate basis.

The same principle applies to the big roads; and it would not be at all surprising to see the major lines and systems uniting in a movement to stimulate traffic through the instrumentality of low It is absolutely essential that the

expense of railroad operationwhether due to managerial waste or to high wages paid to labor, or to conditions over which the management has no control, or to all three causes combined, must be reduced!

The investigation of the interstate commerce committee of the senate along this line will be folowed with interest by the public.

The crying demand back of the whole situation, so far as the public is concerned, is for a reduction in rates, for unquestionably the existing rates are levying upon the people a toll which is having a depressing effect upon all lines of business: and until this readjustment is affected it will be impossible for the country to make a real start toward normal business conditions.

If the investigation of the senate interstate commerce committee is carefully, conscientiously and scientifically directed its conclusion will go a long way toward the solution of what undoubtedly is the most perplexing business problem that confronts the country.

HEALTH TALKS By WILLIAM BRADY, M. D.

SPEAKING OF MUSCLE

The public in general has a fancy that hypertrophied or enlarged muscles signify good health. People of- dress to the State Teachers' asten express surprise that someone of exceptional muscular strength or M. L. Brittain, state superintendent athletic prowess has been stricken down with illness. As a matter of fact, an individual's muscular davelopment has no more to do with ease than the color of his cheeks has to do with the richness of his ruddy cheeks is anemic, and many ed speech an athletic young person suffers some premature breakdown. A reasonable amount of general exercise is essential for good health. Most people in comfortable circumstances suffer for want of sufficient daily exercise. A little too much exercise, causing hypertrophy or overgrowth of some or all of the muscles, is a serious drain on vital energy-the unnecessarily large muscles sap the individual's energies, and that explains why physical culture freaks never win any races or break any

It would take a pretty efficient little muscle to lift a ton of coal to a height of 122 feet every day. Yet you and I have a muscle that does that amount of work every day and often two or three times as much work in a day. It is the heart

first game with Centre college at Ponce De Leon yesterday afternoon with the count two strikes and one with the count two strikes and one hall on Morris, beat out a hit down the third base line, advanced to third on a single over second by David and scored the winning run with two out when Oscar Walton, Petrel third sacker, singled to center field. The final score was 3 and 2 and came as the climar to a ter field. The final score and 2 and came as the climax to a game that was hard fought throughout and quite interesting after the managed to get several erout and quite interesting after the winners managed to get several errors out of their system.

"Chlef" Turk twirled the first five innings for Oglethorpe, allowing three hits and two runs that were acored on a brace of hits and a couple of errors. Turk pitched great ball and in the third frame struck out three men in a row.

Little to Mound. Ford Little took over the mound duties at the start of the sixth and as the Petrels were a bit more steady in their fielding, kept Centre from scoring. He also pitched good ball and gave up but two hits. Little has developed into a first-class pitcher and is going to be one of Anderson's mainstays next

"Bird" Hope drew a big hand from his supporters when he made a beautiful stop of a line drive over second base in the eighth inning that looked good for a hit. Hope fielded good throughout the game with but one exception, bobbling a

with but one exception, bobbling a ball a second.

But the leading role in the starring of the winners goes to Oscar Walton. whose two singles were responsible for two of the victors' runs. He got two hits out of four times at bat, and both came when hits meant runs. His hitting during the first part of the season was weak, but of late he has been pounding the ball at a steady rate. One of the curious features of the game came in the first inning. Converse was announced as the Centre pitcher. He took his stand on the mound, threw two balls to Hope, who bunted foul on the first one and drove the second ball over second base for a single. That ended Mr. Converse's career and Moran took over the pitching duties. He twirled good ball and allowed the Petrels but seven hits.

Embrey Is Star. Embrey Is Star.

Embrey, in center field, made two pretty catches that robbed Petrel patsmen of hits. The Centre team was charged with three misplays. Their playing, especially that of the infield, was not so very good.

Ed David got the only extra base hit of the afternoon in the third inning, and a moment later, on Walton's single to right field, scored one of the runs that helped tie the score. Hope was safe at first one of the runs that helped tie a score. Hope was safe at first ten Moran threw wild in an enavor to head Walton off at secd. Thaxton forced Hope at secd and Walton stopped at third. In the simpson hit to the shortstop axton came home from second ten Whitnell fumbled Carlyle's bunder. That ended the scoring both sides until the ninth in-

ning.
Centre drew first blood in the second with two out. Mayer hit to Hope, who fumbled. Maver went all the way round the paths a moment later when Morris fumbled Carter's

single to right.

The Kentuckians counted again in the third. Moran, first up, beat out a hit to second and scored on Murphy's hit and David's error. The latter redeemed himself for his poor showing in the field with his triple. single to right.

The race was worth \$43,000 to the
winner, \$5,000 to the second horse,
\$3,000 to the third and \$2,000 to the
fourth. It was the richest American stake of the year, the
value to the winner being more than
\$4,000 in excess of the amount paid
to the winner of the Kentucky derby.

The time of the race—ofr the mile and one furlong—was 1:541-5. The winner of the Preakness was cou-pled with Tryster and the Whitney entry was favorite in the bet-ting. The mutuals paid Whitney entry \$4, straight, \$2.80 place and \$2.40 show; Polly Ann, \$5.70 place; \$4.00 show; Jeg, \$6 show.

A Revolution In Taximeters

We are now installing on YELLOW CABS the very newest Taximeter to be had in the world. It is a piece of mechanism which records, in full view of the passenger, every transaction on the trip—the fare per mile and the extras. It eliminates entirely the opportunity for doubt as to the correctness of the amount charged, since a printed receipt comes from this Taximeter showing in detail the amount charged, and for what.

These new Taximeters are being installed only in the larger cities of the country, and we are fortunate to have secured an allotment for Atlanta. They assure patrons of the Yellow Cab line an efficiency in service which is in accord with our pledge to

Street Turns Its Eyes On G.O.P. Tax Revision

New York, May 16 .- Prices on the stock exchange opened lower this morning and continued heavy, although the volume of business handled fell off considerably compared with the closing days of last week. Announcement that prices had been reduced on Hupmobiles from \$200 to \$325, making the fifth automobile price reduction within a fortnight, caused heavy selling in these shares. A few specialties were also weak, Sears-Roebuck opening down 2½ points and selling lower on reports that unseasonable weather was hurting business of the large mail order houses.

In the absence of important news developments, unusual attention was paid by Wall street to information coming over the private wires from Washington outlining the trend of sentiment in administration circles on tax revision. According to these reports, there is to be a 40 per cent reduction in normal and surtax; abolition of excess profits tax; imposition of flat 5 per cent graduate tax on corporate income; possible increase 1 cent in first-class mail; increase of tax on automobiles; increase in admissions; increase in dues; retention of present stamp and internal tax; abolition of tax on beverages; movement against further issues of tax-free securities; general sales tax not recommended.

Notices have been posted in the shops of the Boston Rubber Shoe company, which employs 3,200, that the plants will be closed down from May 27 to July 5. The mild winter resulting in a falling off in demand for the company's output was given as the explanation

Newspapers here are making much of the friction that has developed between France and England over the Silesia situation. International bankers, however, who are in closest touch with London and Paris, were not disturbed. Any serious trouble between England and France is not considered as a possibility. Wall street believes that the stock market may mark time until the

directors of Republic Iron and Steel meet this coming Wednesday to act on dividends. Opinion as to what action will be taken differs Some believe the same quarterly rate of 11/2 per cent will be declared: others are predicting that the annual rate will be cut from 6 per cent 3; in quarters close to the management the opinion prevails that dividends will be passed.

Largely because of conditions created by the coal strike liquidation of commodity prices in England during the month of April was at a faster rate than for March. Today's cables from London give Sauerbeck's index number, which runs back to 1818 and is used by the London Statist, as 169.8. That is a decline of 7.4 points for the month against the decline of 5.8 points, which occurred during March. At the close of the decline the index number was 177.2; at the close of February 183.0; at the close of January 197.2; at the close of April, last year, it was 266.1. At this time in 1914, that is before the war started, it was around 82.

Production of soft coal in this country for the week ending May 7, amounted to 7,296,000 tons, an increase of 326,100 tons compared with the preceding week. Some of this coal is going abroad. Norfolk estimates that 300,000 tons will be shipped from that port during the current month.

With Dallas lowering its rediscount rate from 7 to 61/2 per cent, that institution goes in the class with Minneapolis, New York and Chicago. All of the other Federal Reserve banks are now down to 6

new crop months relatively firm on the continued unfavorable weather in the South. July sold up to 12.90, making a net advance of 31 points. Last prices were within 2 or 3 points of the best, with the market closing steady at a net advance of 8 to 32 points.

The early irregularity was attributed to nervousness over conditions abroad, owing to the continued seriousness of the British labor situation and apprehensions that the attitude of Poland in Silesia might lead to political complications. Owing to the holiday there were no Liverpool cables and no orders from that quarter were reported around the ring here, but close showed net gains of 15 to 24 points, with July at 12.55.

For a while around the opening the market was rather soft on what looked like the filling of selling orders that had accumulated over the week-end. Depressions of 5 to 6 points resulted, July trading down to 12.35 but almost immediately the demand improved because of private seconts from the estate to the control of t

demand improved because of private accounts from the eastern belt, complaining of heavy rains. There was also fear that the lower temperatures over the belt generally would work injury to the crop. The market held quiet, but very steady during the remainder of the session. In the last half hour of the day offerings became very limited on the fear that the low area to the weet of the cotton region meant more rain.

PROFESSIONAL VIEWS ON COTTON SITUATION

New Orleans, May 16.—(Special.)—Indications are that exports from the United States to Europe this week will be larger than last year's shipments and it is possible that spinners' takings for week will be as large, perhaps larger, than for corresponding week of one year ago. Today exports from Galveston to Europe were 24,000, with other ports to hear from, versus only 1,000 this date last year. this date last year.
Uncertainty as to developments in Silesia, international political troubles in England, possibility of a strike of Manchester mill hands and the continuance of the British coal strike are features unfavorable for

New York, May 16 .- Selling of stocks for both accounts, principally the short interest, was resumed in moderate volume today. It continued until the final hour, when covering movement canceled many losses and effected a few substan-

tial gains. Early recessions ran from 1 to 3 points in the prominent motors and their accessories, as well as steels equipments, shippings, metals and food shares. Low-priced oils were under constant fire, due in part to rumors affecting a minor flotation. Miscellaneous issues embracins the mail order, motion picture, leather and less distinctive groups also gave way variably to professional strength. The belated recovery was guided by Mexican Petroleum, In-ternational Paper, Sumatra Tobacco actual gains of one to fully five Virginia-Carolina Chemical 5s points. the market, but for the present are being offset by favorable domestic textile trade reports and unfavorable weather in the interior.

H. & B. BEER.

New York, May 16.—(Special.)—Traders generally expect an improvement. More attention is being given to weather conditions. The strength in new crop months today was caused by the barometric conditions on the government weather map, which indicated the probability of a week of rain.

J. W. JAY & CO.

New York, May 16.—(Special.)—Better domestic trade reports were encouraging. The trade is feeling less selling pressure from the south. The war finance board are still planning to aid the exporter and their services will aid materially in taking care of foreign demand that might spring up when conditions warrant. We anticipate slow improvement.

MEXICAN SUGAR PRODUCERS REACH PRICE AGREEMENT

Washington, May 16.—Mexican sugar producers have reached an agreement fixing the price of sugar, with the expectation of a small advance shortly and with the idea of stabilizing the price of sugar throughout that country, according to official advices here today.

A report received by the department of commerce from Vera Cruz stated that if the price of Mexican sugar is raised, large orders for immediate shipment of American sugar will be placed by Mexican importers. Sugar could then be imported from the United States at a good profit, the advices added.

\$100 Bonds; \$500 Bonds; \$1.000 Bonds Dated April 1, 1921 Maturity of Bonds, 2 to 15 Years

Price, Par and Accrued Interest to Net 7%

These bonds are secured by a first mortgage on the New Cecil Hotel, the land on which it is situated, and the equipment of this building, which are conservatively valued at \$600,000. Payment of the bonds is also secured by a FIRST CLAIM on the NET EARNINGS of the new property.

A specific portion of the bonds will be paid off each year, commencing April 1, 1923, thus reducing the indebtedness, although the entire new building remains mortgaged until the last bond is retired.

The Structure The new Cecil Hotel is to be a nine-story addition to the present Cecil Hotel. It will be constructed of re-enforced concrete and will be fireproof throughout. This modern building will provide Atlanta with two hundred hotel rooms, each with private bath and the most modern appointments. All rooms will be especially designed for homelike beauty and convenience. The New Cecil was designed by the well-known architects, G. Lloyd Preacher & Co., Atlanta, Ga., and the building will be erected by the Griffin Construction Company of this city, who have

built some of the leading hotels and office Earnings Annual earnings of the property are conservatively estimated by our experts at \$60,000. This is nearly three times the amount of the largest annual interest charges before any of the bonds have been retired, and nearly 30 times the amount of interest due on bonds in the year of final maturity. In that year only

Monthly Payments Borrowers are required to deposit with the Trustees each month 1-12 of the total amount due on the bonds outstanding and interest for that year. This gives assurance that every payment of principal and interest will be met on the day due.

Chicago, May 16.—Considerable strength developed in the wheat market today, owing more or less 14 unseasonable cold weather and to a sharp upturn in prices at Winningeg. The market closed unsettled at the same at Saturday's average to 3c higher, with May 1.46 to 1.46 1-4 and July 1.15 1-5 to 1.15 1-2. Corn finished 3-4 to 1c lower: oats off 1-403-8c to 5-8c and provisions unchanged to 25c down.

Reports of heavy frost at various places gave the bulls an advantage in the market almost from the outset, an advantage which was quickly supplemented by word that May delivery at Winnipeg showed a rise of 6c compared with Saturday. It was said growers appeared to have command of the situation at Winnipeg. Meanwhile country offerings here and at other domestic markets were light. Another bullish factor was the disposition which some influential traders showed to take a less bearlsh view of pending legislation. On the other hand, rains in Texas and Oklahoma together with better crop reports from parts of Kansas tended to ease the July delivery somewhat.

Hedging pressure on corn weak-sned the market both for corn and oats. Lower quotations on hogs had a bearish effect on provisions, and to, too, did belief that the semimonthly statement would show a fair increase in supplies.

Keith Vaudeville.

Tuck and Clare, whose act is billed as "Tunes and Twists," but which proves to be mostly "twists," win headline position on an excellent bill of vaudeville at the Lyric theater for the opening half of the week. One of the two, by way of parenthesis, is the first man who ever sat on his own head in Atlanta. He is easily the best contortionist seen in Atlanta in years, and his companion is no less able as a tumbler. A merry line of chatter accompanied the act, which was one of the best ever seen at the Lyric. companied the act, which was one of the best ever seen at the Lyric. Julian Hall and company, the "company" being a red-headed girl with a world of personality, who made the hit of the act, were second in line with a vocal and musical number that won prolonged applause. McCormck and Wallace also proved clever entertainers with a comic ventriloquist turn.

Other acts were Tommy Allen and company, presenting four girls fh a company, presenting four girls in a comedy turn called "Jumble Inn," and Harry and Peggy Oaks in "Smart Stuff." News and feature pictures completed the diverting program.

Loew Vaudeville.

Entertainment fully deserving its billing as all-star scored heavily with three packed houses at Loew's Grand on Monday. The five acts are consistenly above the average while one of the finest photoplays in many weeks is on the screen.

Several offering split first honors. The Four Bangards, presenting two men and two women in the horizon blue uniforms of the French aviation corps, have a spirited and melodious musical number.

"The Drudge," a novel domestic sketch wherein the downtrodden wife uses a brand-new scheme to wife uses a brand-new scheme to trio of male vocalistics whose clos harmony came close to being the hit of the show. George Mack and Mildred Dean furnish a snappy colection of songs, stories and dialog. King and Cody open the show with an artistic dancing revue. film thriller, displays wonderful character acting.

"Through the Back Door."

(At the Howard.)
Atlantans welcomed at the Howard yesterday one of the best, programs ever presented at that theater-a striking contrast between the motion picture as it is today and was in 1908. The program was received so enthusiastically that Manager DeBruler has decided to continue it through the week. The program first shows "the vorld's sweetheart," Mary Pickford, world's sweetheart," Mary Pickford in an old Biograph picture"Friends"—made in 1998 by D. W. Griffith before either Griffith or Miss Pickford was famous; also one of the old Keystone comedles, starring Mabel Normand, Fatty Arbuckle and Al St. John.

In contrast will be Miss Pickford in her latest picture, "Through the Back Door," a charming story in which Mary plays the part of a joyous little girl. Other features complete a splendid program.

Artists, Actors, Poets Plant Tree To Alan Seeger

New York, May 16.—Alan Seeger, a young American, used to look out of dormer window high up at the roof of No. 61 Washington square and write things about life. Then he went away to war—before America went in, in fact—because he loved France. While he was away at war, he wrote things about life and death as well. They were the finest poems that came out of the gigantic struggle.

Then he wrote, fatefully, "I have a rendezvous with death," and went away to keep the rendezvous. "He ran along the field singing," said his Egyptian companion in the foreign legion. "Partners of the Tide." a Hod-kinson release which will be num-bered among the screen successes of the year, opened Monday at the Tudor theater.

It is a thrilling production with many "big moments" and with a love-theme of singular tenderness and appeal interwoven into a fabric of extraordinary intergeting events.

BUENOS AIRES PORT

Wet Gold," a big undersea drama, is being shown at the Rialto this week. It is a tale of two rival factions to recover stolen treasure hidden in an old wreck at the bottom of the sea. The remarkable features of "Wet Gold," are the use of diving suits, a submarine lying on the bottom of the sea as a base of operations, and the finance Salaberry and representatives of the workers.

"Wet Gold."

"A cattle loan bank, with ample capital stock, is one of Georgia's greatest needs right now," said V. B. Leonard, of El Paso, Texas, who is registered at the Winecoff hotel, arriving in Atlanta yesterday. "Such an 'institution would help to finance the farmer and live stock grower and enable them to get away from the 'one crop idea."

Mr. Leonard is at present engaged on a tour of Georgia citles trying to interest capital in this plan. He says that he has met with encouragement in other cities and is in Atlanta to take the matter up with financiers here. For a number of years he was actively engaged in the investment banking business in Texas.

Mr. Leonard declares that Atlanta would be the logical site for such a financial institution, and that in his opinion it would prove of great benefit to Georgia. He points out the fact that the cattle loan banking business is a field in itself, and that other banks can

ARE prime considerations in investments—first safety then return. A first loan on high class, well-improved Atlanta real estate is much safer than a savings account it is as safe as a government bond. The return is twice as much as on the savings account or the government bond; the trouble is no greater; I handle all the details if interested in making a loan of \$1,000 or more, come in and talk the matter over with me. Tongue-tied Business

It often occurs that a man reaches out after a higher class of business which he does not get-and wonders why.

To the advertising expert the reason is very simple; this man is not talking to his prospective customers in an appealing manner; what he says, does not carry enough force with it. Perhaps he is using "shoddy" looking stationery which is not engraved in a manner that will attract the public—We can say a great deal about this—Call up our city salesman (lvy 7211) and have him explain these valuable points. It was understood a firm of grain dealers is indebted to the bank \$225,000, while worthless paper and overdrafts were said to amount to \$175,000. The bank was organized in 1804. It was accelerated in 1894. It was capitalized at \$50,-000 with \$100,000 surplus.

GREENVILLE CAPITAL OF S. C. IN SUMMER

Greenville, S. C., May 16.—(Special.)—Governor Cooper has accepted the invitation by Greenville citizens to come to Greenville about the middle of June, and spend the summer months here, thus making Greenville the summer capital of South Carolina.

The governor will use the summer tome of Allen J. Graham, a local state of mill executive. Space for executives offices has been off him by one of the local banks. Barbed wire was first used for

military purposes in the Spanish-American war in 1898. Of German invention is a one-man plow that is worked forward in the earth by a handle manipulated by a person standing on top of the

Marietta St.--W. & A. Railroad 56,885 sq. ft. of Floor Space

We are offering for sale a 1-story brick building, covering a lot that averages 155x367 feet, running back to a side track off of the W. & A. railroad. To reproduce the building alone would cost the price asked for the entire property.

For a small amount this building could be converted into a manufacturing plant or a large storage warehouse. See us about this unusual opportunity to buy a manufacturing site on railroad. Price \$50,000.

WHAT ARE KRYPTOK BIFOCALS?

They are a combination of glass, allowing you to see both near and far with one solid glass. No removing your reading glass to see distant objects; no seams, lines or blisters to worry you or attract attention of others to your age. Absolutely invisible while on the face, they have proven a revelation to thousands who have come to us for them. Why are we successful with Kryptoks? Because we are extremely careful in the examination of your eyes, the correct grinding of the glass, and perfect adjustment of frames to each individual face, all of which is absolutely necessary to insure comfort and appearance. If you have Kryptoks bought elsewhere and cannot use them, bring them to us and we will find the trouble. Ask the better oculists or any of our patients what the Ballard service is to the public.
